Beginning August 1, 2025, the Three Points Fire District is pleased to announce that residents will be able to dial 311 for non-emergency requests, such as snake removals and smoke detector battery changes. This new 311 service will help ensure that residents receive the non-emergency assistance they need in a timely manner while keeping 911 lines clear for true emergencies.

As stated above, the Three Points Fire Districts residents can call 311 for snake removals and smoke detector battery changes. For all other issues, the 911 system should be utilized.
